Univ. Grenoble Alpes, ranked for the first time in the Shanghai Academic Subject Rankings of World Universities 2017, joins the top 200 world universities

on the August 16, 2017

Education, Research

**The latest academic subject rankings have ranked Univ. Grenoble Alpes as France's number one university in 7 disciplines, as well as in the top 50 best universities in the world in 8 disciplines. Overall, Univ. Grenoble Alpes is cited in the top 150-200 in the general rankings, and among the top 7-9 French universities.**

Univ. Grenoble Alpes improves with respect to 3 criteria that make up 50% of the overall score:

*en Nature and Science papers* (20% note) : 23.9 (4th national ranking) in 2016 against 19.5 in 2015

Global publication score (20% note) : 46.3 (4th national ranking) in 2016 against 23.7 in 2015 ;

score publication per capita (10% note) : 20.3 (7th national ranking) in 2016 against 16.7 in 2015.

For Patrick Lévy, president of Communauté Université Grenoble Alpes and principal investigator of the Initiative of Excellence Univ. Grenoble Alpes (IDEX project), "These are very encouraging results for the coming years, as one of the risks of the recent merger of universities (UJF, UPMF, Stendhal) was to see our rankings drop. And yet we see that we have maintained our position in most disciplines, and even progressed in certain criteria, most notably in the publication score. This translates to a better application of our common Univ. Grenoble Alpes signature, and to greater consideration from bibliometric analysis tools."

"Despite these positive results, and in regards to scientific results and academic subject rankings of the past few years, there remains a substantial scope for improvement in certain criteria. This scope should allow us, as early as 2018, to reach new heights."

Academic thematic rankings: Univ. Grenoble Alpes among the world's top 50 universities in 8 disciplines

With 35 entries in total and 11 in the top 50 international universities, Univ. Grenoble Alpes boasts a very positive position in the 2017 Shanghai Rankings for academic subjects and confirms the site's international excellence. These rankings place Univ. Grenoble Alpes at the head of French universities for the quality of its research and education.

Univ. Grenoble Alpes is the number one French university in 7 disciplines: Metallurgical engineering; Geography; Mining and Mineral engineering; Automation and Control engineering; Electrical & Electronic Engineering; Energy Science & Engineering; and Nanosciences and Nanotechnology.

"This success is a part of the common trajectory held buy all members of the IDEX project 'University Grenoble Alpes: University of Innovation'. It embodies our collective ambition to create a world-class university," asserted Patrick Lévy, PI of this IDEX project.

Univ. Grenoble Alpes in the top 50 classifications of academic subject rankings of world universities

<b>Discipline</b>	<b>French university ranking</b>	<b>International ranking</b>
Metallurgical engineering	1st	13rd UGA (35th Grenoble INP Institute of engineering Univ. Grenoble Alpes)
Geography	1st	17th UGA
Mining and mineral engineering	1st	26th UGA
Automation and Control engineering	1st	31th UGA
Materials science and engineering	3th	43th UGA
Remote sensing engineering	2nd Grenoble INP Institute of engineering Univ. Grenoble Alpes	16th Grenoble INP Institute of engineering Univ. Grenoble Alpes (24th UGA)
Earth Sciences	3rd UGA	32nd UGA
Physics	4th UGA	28th UGA

Univ. Grenoble Alpes ranked as 1st French institution, beyond the top 50

<b>Discipline</b>	<b>Classement des établissements français</b>	<b>International ranking</b>
Electrical & Electronic Engineering	1st ex aequo Grenoble INP Institute of engineering Univ. Grenoble Alpes	51-75
Nanosciences and nanotechnology	1st ex aequo	51-75
Energy Science & Engineering	1st	76-100

The 2017 Academic rankings of world universities also places Univ. Grenoble Alpes in the top 100 in the fields of Environmental sciences, Nanosciences and Nanotechnology, Chemistry, Ecology, Clinical medicine, Instruments science and technology, Electrical & Electronic Engineering and Water resources. Two new top rankings are worth mentioning: in Geography, 17th place in the world and 1st place in France, and in Clinical medicine, top 51-75 place in the world and 2nd in France.

Rankings in details:

#### Top 50

Automation and Control engineering: 31st, 1st in France  
Earth Sciences: 32nd, 3rd in France  
Geography: 17th, 1st in France  
Materials science and engineering: 43rd, 3rd in France  
Metallurgical engineering: 13th, 1st in France  
Mining and mineral engineering: 26th, 1st in France  
Physics: 28th, 4th in France  
Remote sensing engineering: 16th, 2nd in France

#### Top 100

Chemistry: 51-75  
Clinical medicine: 51-75, 2nd in France  
Ecology: 51-75  
Electrical & Electronic Engineering: 51-75, 1st in France  
Energy Science & Engineering: 76-100, 1st in France  
Instruments Science & Technology: 51-75  
Mathematics: 76-100  
Nanosciences and Nanotechnology: 51-75, 1st in France  
Water Resources: 51-75

#### Top 150

Agricultural Sciences: 101-150  
Environmental Science & Engineering: 101-150, 1st in France  
Mechanical Engineering: 101-150

#### Top 200

Biological Sciences: 151-200  
Civil Engineering: 151-200  
Pharmacy: 151-200  
Statistics: 151-200

#### Top 300

Biomedical Engineering: 201-300  
Chemical Engineering: 201-300  
Computer Science & Engineering: 201-300  
Human Biological Sciences: 201-300  
Management: 201-300  
  
Public Health : 301-400
